Goal

Setting the Goal Objectives

- Goal objectives reflect an individual's role for the current year and are aligned with organizational objectives. It is recommended to set 3–4 objectives per year.
- **Current** Goal Objectives: These are tied to the individual's role for the current year, and their total weight should equal 100%.
- **Mid-Long Term** and **Capability Development** Goal Objectives: These should be assigned a weight of 0% as they are not factored into the performance evaluation for the current year.

Main task / Regular work

Weight:

40%

Employee Mid-Year Comments:

Current status:

CDDTC6 - Ver22.01.00.006.D U2Ax

(Pre-Alpha : Jan 2026 / Beta : b/o Apr 2026 / Final : e/o Jun 2026)

- Productivity: ~7.5 LoC / MH
- Quality Incident: 0
- Quality Issue: 0
- PQA/QGC: <= 0.5/Event
- Bug Intermediate Release: 0
- Keep TAT target to re-act/resolve for existing customer's question/request. TAT target.

R-Car Gen4 Maintenance

V4x/S4 maintenance Ver19.08.00.D (15/Jul)

- Productivity: ~ 0.4 LoC / MH
- Quality Incident: 0
- Quality Issue: ARDAACL-62355 (baseline issue)
- PQA/QGC: <= 0.5/Event

- Bug Intermediate Release: 0
- Kept TAT target to re-act/resolve for existing customer's question/request. TAT target.

Objective Details

Visibility:

Public

Category:

Current

Details(Achievement process,criteria etc.):

[Quality] comply to company rule and A-SPICE/FUSA standard like JB5001, JB0019, JF0025 (individual target : NC=0, FC=0, FAU=0, Quality issue=0, Quality incident=0)

-> How to achieve : Follow strictly project template and process. Always complete double check, similar check for all work product before release.

[Quality] manage a new bug in timely manner

Report bug : t

Reproduce bug : t + 3 working days

MO analysis : t + 5 working days

KIL review : t + 9 working days

-> How to achieve : use Gantt to manage each step, make estimation for this bug management in each MG to allocate resource

[Cost] achieve productivity 5.125 LOC/MH (new + modified + deleted) for completing all WPs (RD to VT, auto test) per project request like DCP or internal improvement like code refactoring (SW metrics, QAC violations,...)

-> How to achieve : split the project request to smaller items like API, internal function, error/warning message, generation rule then implement full WPs for each item with test-driven development

[Delivery] complete all release versions on-time (MCU SW: 19, SoC SW: 16) with complying to definition of release classification in RCT-JF5003e

Gantt: <https://jira.renesas.eu/secure/WBSGanttMain.jspx?filter=>

MCAL: BOARD_897, BOARD_1495, BOARD_1717, BOARD_1727, BOARD_1729

RTOS/CST: ASDRHU2BCST, ASDRCU5LCST, ASDRHAOSRC

-> How to achieve : make estimation via JIRA for all release versions which are planned in 2026 in each MG then perform gap analysis with PM/PL estimation, AOP/DCP estimation and allocate resource to make all release versions happen as planned

Employee Mid-Year Comments:

[Goal 1]

[Current situation]

Not start

[Goal 2]

[Current situation]

On-going

[Target]

Finish design from RD->CD

[Action]

Investigate AUTOSAR spec for ADC and PWM to understand and apply for PIC concept

[Goal 3]

[Current situation]

On-going

[Action]

Preparation for VP meeting to demonstrate TC6 patent concept

Objective Details

Visibility:

Category:

Current

Details(Achievement process,criteria etc.):

[Goal 1]

Conduct FS for new use case and BSW concept

[Current situation]

Not start

[Target]

Finish customer use case

[Action]

Check the customer requirement and work with Tai Luu-san to design and implement. Conduct trial integration with customer's testing environment.

[Goal 2]

Conduct newly development CDDPIC for Electrical Brake Demo

[Current situation]

On-going

[Target]

Finish design from RD->CD

[Action]

Investigate AUTOSAR spec for ADC and PWM to understand and apply for PIC concept

[Goal 3]

[Commitment]: To complete the launch of T1S and get patent for TC6 development

[Action]

Create the best design, minimize risks through testing and analysis to reduce the risk of rework. Get the patent for strong design and advance idea

Team Development & Capability Enhancement

Weight:

30%

Employee Mid-Year Comments:

[Skill up] Self evaluate is level 3.5 for ETH

- Familiar with ETH RSW3, RSW2 IP (80%)
- Can analyze and detect issue on development process.
- Familiar with LAN8651 Specification
- Have a deep understanding with T1S via TC6 protocol

[Compliance]

- Complete all training and follow strictly team event

[Team build up]

- Support one OS member to archive level 2

Objective Details

Details(Achievement process,criteria etc.):

[Skill up]

Module Expert : Achieve all Ethernet RD -> CD skills >= level4

[Compliance]

1. Complete all company trainings before deadline
2. Complete daily log work, update individual status on JIRA tickets daily, update MG status on JIRA tickets weekly (Fri)
3. Complete MAC, annual inventory per RAMS procedure

[Team build up]

Help teammate who have small level can catch up and have a deep knowledge about Gen4 and CDDTC6.

Category:

Mid-long Term

Details(Achievement process,criteria etc.):

Objective:

Successfully took technical ownership of the AUTOSAR MCAL Ethernet driver and improved its compliance, stability, performance, and integration readiness for production programs.

Key Achievements:

- Completed MCAL ETH compliance review against AUTOSAR SWS and resolved major functional and configuration gaps.
- Improved driver robustness across Tx/Rx data paths, DMA handling, interrupt processing, link state changes, and controller mode transitions.
- Enhanced Ethernet runtime performance by optimizing throughput, latency, CPU load, ISR execution, and buffer/DMA handling.
- Strengthened integration with EthIf, EthTrcv, EcuM, Mcu, Port, Dem/Det, and OS by improving configuration quality, debugging support, and bring-up guidance.
- Expanded regression and integration test coverage for critical MCAL ETH scenarios, including Tx/Rx, link up/down, buffer exhaustion, interrupt handling, and error recovery.
- Provided technical guidance, design/code reviews, issue analysis, and mentoring to support successful MCAL ETH development and integration.

Culture

Culture objectives are set to demonstrate the expected behaviors in an individual's work, based on Renesas Culture (TAGIE). It is recommended to have at least 2 objectives per year. **All TAGIE elements are displayed by default; you may leave any elements blank that are not your focus this year.**

1 . Transparent

Cultivate openness by sharing information, within the bounds of discretion, to help others make good decisions
Align frequently and keep others informed
Give honest feedback with positive intent
Escalate issues in the best interests of Renesas

Employee Mid-Year Comments:

Follow the company rules

Report/sharing issues in advance

Clearly inform the working schedule in advance

Employee's Culture Objective

2 . Agile

Willingness to change ideas based on new information

Adapt quickly to changing circumstances and ambiguity with resilience

Willing to work with 'enough' but not all information to enable a project to move with speed and course correct real time

Able to work in a 'rapid iteration' style by sharing drafts and iterating with stakeholders

Reflect frequently and recognise when it's right to change course

Employee Mid-Year Comments:

Willing to accept assignment change

Always looking for solution to solve issue

Employee's Culture Objective

3 . Global

Develop insight into the environment in which Renesas is operating and take time to be curious and learn about other cultures

Use language that is easy to understand

Listen to the voices of our diverse stakeholders

Harness the knowledge of our colleagues globally

Take time to prepare your communications

Employee Mid-Year Comments:

Take part in all the required training courses

Able to use English in daily work

Employee's Culture Objective

4 . Innovative

Challenge outdated assumptions and processes; contribute new creative ideas and solutions

Take measured risks and not be afraid to fail

Lead and champion new ideas

Try new ways of working by learning from prior experience and incorporating insights from peers

Employee Mid-Year Comments:

Active in discussion and investigate to find effective solutions

Employee's Culture Objective

5 . Entrepreneurial

Keep overall company purpose in mind

Be accountable and take responsibility for results; care about the outcome

Be alert to emerging issues and trends

Understand and evaluate the commercial impact of ideas and decisions made

Acknowledge constraints and work to problem-solve to overcome obstacles

Employee Mid-Year Comments:

Take responsible for outcomes

Employee's Culture Objective

Career

Guideline for employees

Share your career aspirations, long-term goals, and the skills or experience you would like to develop. Be as specific as possible about roles, projects or learning opportunities that interest you and explain how they align with your strengths or future ambitions. In addition, if you believe you have gaps in your knowledge or competence to support the achievement of your goals, please identify these here and agree with your manager on how you may fulfil these.
