

2026 Goal & Culture Assessment for Tuan Nguyen

Review Dates

Originator:	Review Period:	Due Date:
HR Admin (50002371)	01/01/2026 - 12/31/2026	03/31/2027

Goal

Setting the Goal Objectives

- Goal objectives reflect an individual's role for the current year and are aligned with organizational objectives. It is recommended to set 3–4 objectives per year.
- **Current** Goal Objectives: These are tied to the individual's role for the current year, and their total weight should equal 100%.
- **Mid-Long Term** and **Capability Development** Goal Objectives: These should be assigned a weight of 0% as they are not factored into the performance evaluation for the current year.

Main task / Regular work

Objective 1: Process

Objective 2: Quality

Objective 3: Cost

Objective 4: Delivery

Weight:

25%

Employee Mid-Year Comments:

+ Completely release for below milestones on time:

- Ver 23.03.00 U5Lx - U5L final (m/o Feb - 26)
- Ver 23.04.00 U5x - U5M16 Alpha (e/o Apr - 26)
- Ver 23.05.00 U5x - U5L MP (e/o Jun - 26)

+ Perform bug/improvement for U5x:

- ARDAACL-62355
- ARDAACV-167
- ARDAACL-61957

+ Join to lead LIN/FR/UART team

- Collaboration with team to define plan across devices.
- + Current productivity 7.787 LOC/MH (new + modified + deleted lines of code) for completing all WPs
- + Self-evaluation: 3/5

Objective Details

Visibility:

Public

Category:

Current

Details(Achievement process,criteria etc.):

Objective 1: Process

[Goal]

Comply with company rules and A-SPICE/FuSa standards.

Ensure full compliance with company rules and applicable A-SPICE/FuSa standards such as JB5001, JB0019, and JF0025.

[Targets]

- NC = 0 ; FC = 0 ; FAU = 0 ; Quality issue = 0 ; Quality incident = 0

[Action]

1/ Follow the task guideline and trainings of department

2/ Apply process requirements consistently in daily work products and reviews.

3/ Proactively check deliverables to prevent non-compliance before submission.

Objective 2: Quality

[Goal]

Manage new bugs in a timely manner

Handle newly reported bugs within the defined turnaround time.

[Targets]

- Report bug: t

- Reproduce bug: t + 3 working days

- MO analysis: t + 5 working days

- KIL review: t + 9 working days

[Action]

1/ Use a Gantt chart to manage each bug-handling step and track progress clearly.

2/ Make effort estimation for bug management to allocate resources properly.

3/ Monitor bug status regularly and escalate risks early if timeline deviation is detected.

4/ Coordinate closely with related stakeholders to ensure quick resolution.

Objective 3: Cost

[Goal] : Achieve productivity target of department

[Target]

Productivity 5.125 LOC/MH (new + modified + deleted lines of code) for completing all WPs

[Action]

1/ Merging ETH X2x to SML

2/ Apply AI to support investigation, code review, test analysis

Objective 4: Delivery

[Goal]

Complete all release versions on time

Complete all assigned release versions on schedule while complying with the definition of release classification in RCT-JF5003e.

[Target]

Release milestones:

- Ver 23.03.00 U5Lx - U5L final (m/o Feb - 26)
- Ver 23.04.00 U5x - U5M16 Alpha (e/o Apr - 26)
- Ver 23.05.00 U5x - U5M16 Beta (e/o Jun - 26)
- Ver 23.06.00 U5x - U5M16 Final (e/o Nov - 26)

[Action]

- 1/ Make estimations in JIRA for all release versions planned in 2026 in each MG.
- 2/ Perform gap analysis between:
 - + PM/PL estimation
 - + Actual available resources
 - + Project planingthen allocate resources appropriately to ensure all release versions are delivered as planned.
- 3/ Track progress regularly and identify schedule risks early.
- 4/ Cooperate closely with PM/PL and related teams to handle issues impacting delivery timeline.
- 5/ Offline meeting weekly to check and sharing the status

Challenge

Objective 1: Enhance ETH features

Objective 2: Leading BSW team to integrate Renesas MCAL with BSW OSS (easyXmen)

Weight:

25%

Employee Mid-Year Comments:

+ Complete support form RD to CD for 4/5 features:

- Inter-Packet Gap Configuration
- Pre-/Post-ControllerInit User-Functions
- Notification callout in case all reception buffers are occupied by the software
- Retrieval and Reset of Measurement Data

+ Continue to collaboration with Vector team to support for remaining features and testing.

- + Investigated BSW easyXmen and sharing to other member.
- + Configure base package for BSW using easyXmen platform is on-going.
- + Self-evaluation: 3/5

Objective Details

Visibility:	Category:
Public	Current

Details(Achievement process,criteria etc.):

Objective 1: Enhance ETH features

[Goal]

Add new functionality to ETH driver

[Targets]

Newly develop Vector's feature for Renesas MCAL ETH driver

The list of requested features:

1. Inter-Packet Gap Configuration
2. Pre-/Post-ControllerInit User-Functions
3. Notification callout in case all reception buffers are occupied by the software
4. Retrieval and Reset of Measurement Data
5. PHC Correction

[Action]

- 1/ Collaborate Vector to define the feature and confirm the design and testing approach (ask NghiaDo to get training course and testing environment with MicroSar OS)
- 2/ Implement the new features and make it available for all devices
- 3/ Perform testing with system scenario

[Contribute to department]

MCAL ETH driver has advance features, it's more compatible with Vector. Renesas product has more opportunity

Objective 2: Leading BSW team to integrate Renesas MCAL with BSW OSS (easyXmen)

[Goal]

Create new baseline for VT using BSW OSS (easyXmen)

[Targets]

Perform VT with Application, BSW module same as customer

[Action]

- 1/ Collaborate ISoft to integrate latest Renesas U2A/U5Lx MCAL with BSW OSS (easyXmen)
- 2/ Define approach, plan for project.

[Contribute to department]

Improve the testing environment in Renesas MCAL to match with customer environment.

Business Contribution

Objective 1: Quality Improvement

Objective 2: Cost Improvement

Weight:

25%

Employee Mid-Year Comments:

+ Do 1 improvement [\[ARDAACL-61957\] Improve the execution-time check for the initialization, set controller mode process - JIRA ASR-d \[Live\]](#) according to customer feedback to improve the performance for ETH driver.

+ Self-evaluation: 3/5

Objective Details

Visibility:

Public

Category:

Current

Details(Achievement process,criteria etc.):

Objective 1: Quality Improvement

[Goal]

Reduce bugs after release

[Current situation]

Customers report many bugs after release

[Targets]

Detect bugs at an early stage (before Alpha, Beta, and Final release versions).

[Action]

1/ Strengthen test strategy to increase early bug detection rate (unit/integration/regression, negative tests, boundary tests).

2/ Improve SW metrics to simplify code structure and reduce defect-prone complexity.

3/ Improve design patterns / defensive coding to reduce missing-case defects.

4/ Add "similar issue checks" for known bugs (regression patterns, rule checks, static checks).

5/ Improve requirement analysis to reduce missing/ambiguous cases and improve test coverage mapping.

Objective 2: Cost Improvement

[Goal]

Reduce cost in test maintenance

[Current situation]

Test-case are not re-use between device series, cause high cost when updating/porting.

[Targets]

IT test-suite is commonized, share the test-app between devices, focus on functionality and reduce the device depend

[Action]

1/ Define functionality testing approach for ETH

2/ Merge IT test suite for U5x/X5H/X2x devices

3/ Enhance testing as result of Challenge #2

Team Development & Capability Enhancement

Objective 1: Enhance in Cyber Security

Objective 2: Improve skill for LIN/FR/UART

Weight:

25%

Employee Mid-Year Comments:

- + Failed the Security leader level 1 exam. Will take the exam again in Q3/2026
- + Sharing knowledge for OS member to join and develop for ETH
- + Worklog, training, company rule: Ontime, no delay/reports
- + Skill for LIN/FR/UART is current at level 2.
- + Self-evaluation: 3/5

Objective Details

Visibility:

Details(Achievement process,criteria etc.):

Objective 1: Enhance in Cyber Security

[Goal]

Has one member got the Security leader level 1

[Current situation]

Team has no knowledge for Cyber security

[Targets]

Achieves Security leader level 1

[Action]

1/ Self investigates the department document (contact Luat for more information)

2/ Take part in the exam

Objective 2: Improve skill for LIN/FR/UART

[Goal]

Achieves level 2 for LIN/FR/UART skill

[Current situation]

Get basic knowledge for LIN/FR/UART (Level ~0)

[Targets]

Achieves level 2 for LIN/FR/UART skill

[Action]
1/ Self investigates the department document.
2/ On job training.

Culture

Culture objectives are set to demonstrate the expected behaviors in an individual's work, based on Renesas Culture (TAGIE). It is recommended to have at least 2 objectives per year. **All TAGIE elements are displayed by default; you may leave any elements blank that are not your focus this year.**

1 . Transparent

Cultivate openness by sharing information, within the bounds of discretion, to help others make good decisions
Align frequently and keep others informed
Give honest feedback with positive intent
Escalate issues in the best interests of Renesas

Employee Mid-Year Comments:

- Cultivate openness by sharing information, within the bounds of discretion, to help others make good decisions
- Align frequently and keep others informed
- Give honest feedback with positive intent
- Escalate issues in the best interests of Renesas

Employee's Culture Objective
Give honest feedback with positive intent

2 . Agile

Willingness to change ideas based on new information
Adapt quickly to changing circumstances and ambiguity with resilience
Willing to work with 'enough' but not all information to enable a project to move with speed and course correct real time
Able to work in a 'rapid iteration' style by sharing drafts and iterating with stakeholders
Reflect frequently and recognise when it's right to change course

Employee Mid-Year Comments:

- Willingness to change ideas based on new information
- Adapt quickly to changing circumstances and ambiguity with resilience
- Willing to work with 'enough' but not all information to enable a project to move with speed and course correct real time
- Able to work in a 'rapid iteration' style by sharing drafts and iterating with stakeholders
- Reflect frequently and recognise when it's right to change course
-

Employee's Culture Objective

- Willingness to change ideas based on new information
- Adapt quickly to changing circumstances and ambiguity with resilience
- Willing to work with 'enough' but not all information to enable a project to move with speed and course correct real time
- Able to work in a 'rapid iteration' style by sharing drafts and iterating with stakeholders
- Reflect frequently and recognise when it's right to change course

3 . Global

Develop insight into the environment in which Renesas is operating and take time to be curious and learn about other cultures
Use language that is easy to understand
Listen to the voices of our diverse stakeholders
Harness the knowledge of our colleagues globally
Take time to prepare your communications

Employee Mid-Year Comments:

- Develop insight into the environment in which Renesas is operating and take time to be curious and learn about other cultures
- Use language that is easy to understand
- Listen to the voices of our diverse stakeholders
- Harness the knowledge of our colleagues globally
- Take time to prepare your communications

Employee's Culture Objective

- Develop insight into the environment in which Renesas is operating and take time to be curious and learn about other cultures
- Use language that is easy to understand
- Listen to the voices of our diverse stakeholders
- Harness the knowledge of our colleagues globally
- Take time to prepare your communications

4 . Innovative

Challenge outdated assumptions and processes; contribute new creative ideas and solutions

Take measured risks and not be afraid to fail

Lead and champion new ideas

Try new ways of working by learning from prior experience and incorporating insights from peers

Employee Mid-Year Comments:

- Challenge outdated assumptions and processes; contribute new creative ideas and solutions
- Take measured risks and not be afraid to fail
- Lead and champion new ideas
- Try new ways of working by learning from prior experience and incorporating insights from peers

Employee's Culture Objective

- Challenge outdated assumptions and processes; contribute new creative ideas and solutions
- Take measured risks and not be afraid to fail
- Lead and champion new ideas
- Try new ways of working by learning from prior experience and incorporating insights from peers

5 . Entrepreneurial

Keep overall company purpose in mind

Be accountable and take responsibility for results; care about the outcome

Be alert to emerging issues and trends

Understand and evaluate the commercial impact of ideas and decisions made

Acknowledge constraints and work to problem-solve to overcome obstacles

Employee Mid-Year Comments:

- Keep overall company purpose in mind
- Be accountable and take responsibility for results; care about the outcome
- Be alert to emerging issues and trends
- Understand and evaluate the commercial impact of ideas and decisions made
- Acknowledge constraints and work to problem-solve to overcome obstacles

Employee's Culture Objective

- Keep overall company purpose in mind
- Be accountable and take responsibility for results; care about the outcome
- Be alert to emerging issues and trends
- Understand and evaluate the commercial impact of ideas and decisions made
- Acknowledge constraints and work to problem-solve to overcome obstacles

Career

Guideline for employees

Share your career aspirations, long-term goals, and the skills or experience you would like to develop. Be as specific as possible about roles, projects or learning opportunities that interest you and explain how they align with your strengths or future ambitions. In addition, if you believe you have gaps in your knowledge or competence to support the achievement of your goals, please identify these here and agree with your manager on how you may fulfil these.
